27th March to 1st April 2022

We've been to Tasmania and survived!

A young lady was at her first golf lesson when she asked an interesting question...

Q: "Is the word spelt P-U-T or P-U-T-T?" She asked her instructor.

A: "P-U-T-T is correct," the instructor replied.

"P-U-T means to place a thing where you want it. "P-U-T-T means merely a futile attempt to do the same thing."

Ruins include the huge penitentiary and the remaining shell of the Convict Church, which was built by inmates. Solitary confinement cells in the Separate Prison building were used to inflict mental punishment in place of floggings. 1 hour 30 min Would need most of the day, but worth it.

Climate in Tasmania in March/April

Tasmania has four distinct seasons with the warmest months being December to March. The average maximum daily summer temperatures are between 17 and 23 degrees Celsius and winter daily temperatures sit between 3 and 11 degrees Celsius.

Rainfall varies dramatically across the island. Hobart, with an average of 626 millimetres is Australia's second-driest capital city (after Adelaide), while on the west coast an annual average of 2,400 mm ensures the rainforest thrives.

Regardless of where you travel in Tasmania you should be prepared for sudden, temporary deterioration in the weather, especially if bushwalking. Always carry additional warm clothing, including a waterproof outer layer.

Where is the best place for Tasmanian souvenirs?

Most hotels have souvenirs on sale, but good places to look are around the Hobart wharfs, Salamanca Place and at the tour destinations, which have a wide range of items. Prices may vary, but most outlets sell good quality items.
